

New Build/Renovation Services

Let me help you create the home or space you've always dreamed of. I collaborate with you, your architect, builder and/or contractor(s) from the very beginning, optimizing your living space. Also, providing the information you need to make informed decisions about costs and aesthetic decisions that will affect the final outcome. I'll guide you through the selection process, choosing the perfect fabrics, stone, tile, flooring, wall coverings, paint, window treatments, hardware, and lighting to bring your dream home or space to life.
